To: DLB Custom Homes Inc.

How do you choose a home builder? How do you chose a heart surgeon? For us, these two things aren't that different when it comes to choosing one. If you ever need either one, the argument could be made that they are some of the most important decisions in your life. Decisions that Yelp ratings and per SQ/FT pricing can't help you with. We were very fortunate to have a very close friend introduce us to Dan Boylan based on past projects where they crossed paths. In that very first meeting, we knew Dan was It! We didn't know how much it was going to cost. We didn't know much about our next steps. The only thing we knew for sure was that we wanted Dan leading the project for us. It wasn't so much of WHAT he said, but the WAY and HOW he said it. The amount of knowledge and confidence that he showed in that first meeting was just a taste of what he demonstrated throughout our entire project. At times, it was actually hard to tell whose home he was building... his or ours. His level of care, concern, and attention to detail was far beyond anything that we could ever have expected. The end result?... Just look around! If you are reading this in your own quest for a home builder, please setup a time with us so that you can see for yourself the amount of detail, care, and concern that went into every aspect of this house.

We'd also like to thank the entire DLB team. In particular, John and Kim who were there every step of the way with us. From the bottom of our hearts, thank you for making this dream home come true.

So, how do you choose a home builder? Easy... you just know in your heart when you find the right one!

THANK YOU

Shawn & Hsiao-wei Krivjansky
