To Whom It May Concern:

We interviewed several Builders for our home in Talking Rock Ranch and quickly realized DLB Custom homes (Dan Boylan) would be our choice.

When you spend significant amount money for your home there are several important qualities that we felt were a priority to Dan.

The ability to communicate effectively and timely, innovate and create ideas and follow up while delivering an excellent product were strengths of Dan and his company.

Dan suggested several innovative ideas and built the home like it was his own. Dan was able to maximize every square foot of space on our lot and positioned our house in the perfect location to maximize our views.

To this day Dan follows up on any special needs and views our business as a partnership forever.

He has totally earned our trust.

We feel DLB always stands behind their work and takes pride in delivering a great product and keeping their customers satisfied."
